• TITLE: Cancer Prevention Fellowship Program
SPONSOR: National Cancer Institute
https://cpfp.cancer.gov/
Synopsis: The overarching goal of the CPFP is to provide a strong foundation for scientists and clinicians to train in the field of cancer prevention and control. As part of the program, NCI offers training toward an MPH degree at an accredited university during the first year, followed by mentored research with investigators at the NCI.
Application Receipt/Submission Date(s): August 25, 2014

• TITLE: Research Supplements to Promote Diversity in Health-Related Research (Admin Supp)
(PA-12-149)
SPONSOR: National Cancer Institute, National Eye Institute, National Heart, Lung, and Blood Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute of Diabetes and Digestive and Kidney Diseases, National Institute on Drug Abuse, National Institute of Environmental Health Sciences, National Institute of General Medical Sciences, National Institute of Mental Health, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, National Institute on Minority Health and Health Disparities, National Library of Medicine, Fogarty International Center, National Center for Complementary and Alternative Medicine, National Center for Advancing Translational Sciences, Office of Research Infrastructure Programs, Office of Dietary Supplements, Office of Strategic Coordination
Synopsis: The National Institutes of Health (NIH) and the Centers for Disease Control and Prevention (CDC) hereby notify Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) holding specific types of NIH research grants (including P30, the Center Core grant) listed in the full Funding Opportunity Announcement (FOA) that funds are available for administrative supplements to improve the diversity of the research workforce by supporting and recruiting students, postdoctorates, and eligible investigators from groups that have been shown to be underrepresented in health-related research.
Application Receipt/Submission Date(s): Due dates may vary by awarding IC.

• TITLE: Pilot studies in Pancreatic Cancer (R03)
(PA-11-298)
SPONSOR: National Cancer Institute
Synopsis: This FOA intends to promote innovative research across multiple disciplines for a better understanding of the biology, etiology, detection, prevention, and treatment of pancreatic cancer. The R03 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources.
Application Receipt/Submission Date(s): Multiple dates, see announcement

• TITLE: Paul Calabresi Career Development Award for Clinical Oncology
The purpose of the Paul Calabresi Career Development Award for Clinical Oncology (K12) is to increase the number of clinicians (M.D.s, D.O.s, Pharm.D.s, nurses with Ph.D.s or equivalent) and Ph.D. scientists who are trained to design and test clinical therapeutic research protocols (pilot/Phase I, Phase II, and Phase III clinical trials), conduct patient-oriented cancer therapeutic research in team research environments, and to support the career development of investigators who have made a commitment to focus their research endeavors on patient-oriented research.

Application Receipt/Submission Date(s): June 18, 2014; June 18, 2015, by 5:00 PM local time

**TITLE: Research on Malignancies in the Context of HIV/AIDS (R01)**

**SPONSOR: National Cancer Institute**, National Institute of Dental and Craniofacial Research

**Synopsis:** This FOA encourages research efforts that will (i) provide information on the clinical outcomes of such cancers in the HIV-infected population and (ii) identify specific contributions resulting from HIV infection and its potential interaction with other pathogens for the development and pathogenesis of these cancers. Ultimately, such efforts could inform screening approaches and therapies targeted to the HIV-infected population.

Application Receipt/Submission Date(s): Multiple dates, see announcement

**TITLE: Research on the Health of LGBTI Populations [R01]**

**SPONSOR: National Cancer Institute, Eunice Kennedy Shriver**

Synopsis: The National Institutes of Health (NIH) is committed to supporting research that will increase scientific understanding of the health status of various population groups and improve the effectiveness of health interventions and services for individuals within those groups.

Application Receipt/Submission Date(s): Multiple dates, see announcement

**TITLE: New Technologies for Viral Hepatitis SBIR (R43/R44)**

**SPONSOR: National Cancer Institute**, National Institute of Diabetes and Digestive and Kidney Diseases, National Heart, Lung, and Blood Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute on Deafness and Other Communication Disorders, National Institute on Drug Abuse, National Institute of Mental Health, National Institute on Minority Health and Health Disparities, Office of Behavioral and Social Sciences Research, Office of Research on Women’s Health

Synopsis: This FOA encourages small business establishments to submit applications that address any of the specific research topics in the Viral Hepatitis Action Plan that are assigned to the NIH and germane to the research mission of the respective NIH Institutes and Centers in order to facilitate the development, evaluation, and validation of products that would be implemented in the public health efforts to reduce the burden of viral hepatitis in the United States. Applications that propose clinical trials beyond Phase I studies will be beyond the scope of this FOA.

Application Receipt/Submission Date(s): Multiple dates, see announcement

**TITLE: New Technologies for Viral Hepatitis STTR (R41/R42)**

**SPONSOR: National Cancer Institute**, National Institute of Diabetes and Digestive and Kidney Diseases, National Heart, Lung, and Blood Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, Eunice Kennedy Shriver National Institute of Child Health and Human Development
