REQUESTS FOR APPLICATIONS

• TITLE: T32 Training Program for Institutions That Promote Diversity (T32)
  (RFA-HL-16-007)
SPONSOR: National Cancer Institute, National Heart, Lung, and Blood Institute
Application Receipt Date(s): Multiple dates, see announcement.

- **TITLE:** NIDCD Research Career Transition Award for Nurturing Clinician-Investigators (K22)
  (RFA-DC-15-002)
SPONSOR: National Institute on Deafness and Other Communication Disorders
Application Receipt Date(s): Multiple dates, see announcement.

- **TITLE:** BRAIN Initiative: Development and Validation of Novel Tools to Analyze Cell-Specific and Circuit Specific Processes in the Brain (U01)
  (RFA-MH-15-225)
SPONSOR: National Institute of Mental Health, National Center for Complementary and Alternative Medicine
National Eye Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism
National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute on Drug Abuse, National Institute on Deafness and Other Communication Disorders, National Institute of Neurological Disorders and Stroke
Application Receipt Date(s): LOI due February 18, 2015; Full Applications due March 18, 2015

### PROGRAM ANNOUNCEMENTS

- **TITLE:** Administrative Supplements for Research on Sex/Gender Differences (Admin Supp)
  (PA-15-034)
SPONSOR: National Cancer Institute, Office of Research on Women's Health, John E. Fogarty International Center
National Center for Complementary and Alternative Medicine, National Eye Institute, National Human Genome, Research Institute, National Heart, Lung, and Blood Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute on Drug Abuse, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute of Diabetes and Digestive and Kidney Diseases, National Institute of Environmental Health Sciences, National Institute of General Medical Sciences, National Institute of Mental Health, National Institute on Minority Health and Health Disparities, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, National Library of Medicine
Synopsis: The Office of Research on Women's Health (ORWH) announces the availability of administrative supplements to support research highlighting the impact of sex/gender differences (or similarities) and/or sex and gender factors in human health and illness, including basic, preclinical, clinical and behavioral studies. Of special interest are studies relevant to understanding of the significance of biological sex on cells; comparative studies of male and female tissues, organ systems and physiological systems; sex based comparisons of pathophysiology, biomarkers, gene expression, clinical presentation and prevention and treatment of diseases. The proposed research must address at least one objective from Goals 1 through 3 of the NIH Strategic Plan for Women's Health Research. Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **TITLE:** Academic-Community Partnership Conference Series (R13)
  (PAR-15-032)
SPONSOR: Eunice Kennedy Shriver National Institute of Child Health and Human Development
Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **TITLE:** Cancer Prevention, Control, Behavioral Sciences, and Population Sciences Career Development Award (K07)
  (PAR-15-033)
SPONSOR: National Cancer Institute
Synopsis: The purpose of the Cancer Prevention, Control, Behavioral Sciences, and Population Sciences Career Development Award (K07) is to support the career development of junior investigators with research or health professional doctoral degrees who want to become cancer-focused academic researchers in cancer prevention, cancer control, or the behavioral or population sciences. Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **TITLE:** Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers (P30)
  (PAR-13-386)
SPONSOR: National Cancer Institute
Synopsis: This Funding Opportunity Announcement (FOA) invites applications for P30 Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers. CCSGs support two types of cancer centers: 1) Comprehensive Cancer Centers, which demonstrate reasonable depth and breadth of research activities in each of three major areas: basic laboratory; clinical; and prevention, control and population-based research, and which
have substantial transdisciplinary research that bridges these scientific areas; and 2) Cancer Centers, which are primarily focused on basic laboratory; clinical; and prevention, cancer control, and population-based research; or some combination of these areas.

Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **TITLE:** NCI Established Investigator Award in Cancer Prevention and Control (K05) (PAR-12-065)
  **SPONSOR:** National Cancer Institute
  **Synopsis:** The purpose of the NCI Established Investigator Award in Cancer Prevention and Control (K05) is to provide protected time to senior investigators with exceptional mentoring records and sustained, high levels of research productivity in cancer prevention, cancer control, or the behavioral or population sciences to devote to research and mentoring.
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **TITLE:** Advancing Interventions to Improve Medication Adherence (R21) (PA-14-335)
  **SPONSOR:** National Cancer Institute, Office of Behavioral and Social Sciences Research, National Eye Institute, National Heart, Lung, and Blood Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute on Deafness and Other Communication Disorders, National Institute of Mental Health, National Institute of Nursing Research,
  **Synopsis:** This funding opportunity announcement (FOA) is being issued by the NIH Adherence Network through the Office of Behavioral and Social Sciences Research (OBSSR), with participation from multiple NIH Institutes. This FOA encourages Exploratory/Developmental Research Project Grant (R21) applications for research and development of interventions to significantly improve medication adherence in individuals. Applications may target medication adherence in the context of treatment for a single illness or chronic condition (e.g., hypertension), to stave off a disease recurrence (e.g., cancer) or for multiple comorbid conditions (e.g., hypertension, diabetes, alcohol use disorders and HIV/AIDS). A well-articulated theoretical or conceptual framework is key for applications encouraged under this announcement. Applications submitted under this mechanism should be exploratory and novel. These studies should break new ground or extend previous discoveries toward new directions or applications.
  Application Receipt Date(s): Multiple dates, see announcement.

  **SPONSOR:** U.S. Food and Drug Administration, Center for Tobacco Products, National Cancer Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse Office of Disease Prevention
  **Synopsis:** The purpose of this FOA is to generate data to support the implementation of public displays of HPHC information. The NIH and the FDA have formed an interagency partnership to foster research relevant to FDA's tobacco regulatory authorities. The award under this FOA will be administered by NIH using designated funds from the FDA CTP for tobacco regulatory science mandated by the Family Smoking Prevention and Tobacco Control Act (FSPTCA), Public Law 111-31.
  Application Receipt Date(s): Multiple dates, see announcement.

- **TITLE:** Investigator Initiated Extended Clinical Trial (R01) (PAR-15-040)
  **SPONSOR:** National Institute of Allergy and Infectious Diseases
  Application Receipt Date(s): Multiple dates, see announcement.

- **TITLE:** Systems Science and Health in the Behavioral and Social Sciences (R21) (PAR-15-047)
  **SPONSOR:** Office of Behavioral and Social Science Research, National Cancer Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development National Institute of Dental and Craniofacial Research, National Institute of Environmental Health Sciences National Institute of Mental Health, National Institute of Nursing Research, Office of Disease Prevention
  **Synopsis:** This FOA is intended to increase the breadth and scope of topics that can be addressed with systems science methodologies. This FOA calls for research projects that are applied and/or basic in nature (including methodological and measurement development), have a human behavioral and/or social science focus, and employ methodologies suited to addressing the complexity inherent in behavioral and social phenomena, referred to as systems science methodologies. Additionally, this FOA seeks to promote interdisciplinary collaboration among health researchers and experts in computational approaches to further the development of modeling- and simulation-based systems science methodologies and their application to important public health challenges.
  Application Receipt Date(s): Multiple dates, see announcement.
• TITLE: Systems Science and Health in the Behavioral and Social Sciences (R01)  
(PAR-15-048)  
SPONSOR: Office of Behavioral and Social Science Research, National Cancer Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute of Dental and Craniofacial Research, National Institute of Environmental Health Sciences, National Institute of Mental Health, National Institute of Nursing Research, Office of Disease Prevention  
Synopsis: This FOA is intended to increase the breadth and scope of topics that can be addressed with systems science methodologies. This FOA calls for research projects that are applied and/or basic in nature (including methodological and measurement development), have a human behavioral and/or social science focus, and employ methodologies suited to addressing the complexity inherent in behavioral and social phenomena, referred to as systems science methodologies. Additionally, this FOA seeks to promote interdisciplinary collaboration among health researchers and experts in computational approaches to further the development of modeling- and simulation-based systems science methodologies and their application to important public health challenges.  
Application Receipt Date(s): Multiple dates, see announcement.

• TITLE: Cancer Prevention, Control, Behavioral Sciences, and Population Sciences Career Development Award (K07)  
(PAR-15-033)  
SPONSOR: National Cancer Institute  
Synopsis: The purpose of the Cancer Prevention, Control, Behavioral Sciences, and Population Sciences Career Development Award (K07) is to support the career development of junior investigators with research or health professional doctoral degrees who want to become cancer-focused academic researchers in cancer prevention, cancer control, or the behavioral or population sciences.  
Application Receipt Date(s): Multiple dates, see announcement.

• TITLE: Validation of Molecular Diagnostics to Predict Patient Outcomes Using Specimens from Multi-Site Cancer Trails (R21)  
(PA-12-014)  
SPONSOR: National Cancer Institute  
Synopsis: This Funding Opportunity Announcement (FOA), issued by the National Cancer Institute (NCI), National Institutes of Health (NIH), encourages the submission of Exploratory/Developmental Research Project Grant (R21) applications from institutions and organizations to validate the clinical utility of new molecular diagnostics for determining prognosis or predicting response to therapy or toxicity for cancer. The Cancer Diagnosis Program (CDP) and the Cancer Therapy Evaluation Program (CTEP) at the NCI are cooperatively sponsoring this FOA with the purpose to transition of candidate biomarkers from initial correlative observations into diagnostics that are suitable for use in clinical trials to assess the clinical validity of a marker. This program will support pilot research projects to improve clinical decision-making in the care of cancer patients and as such will support studies that use tumor specimens linked to specific treatment and clinical outcome information. This FOA is not appropriate for molecular diagnostics discovery projects.  
Application Receipt Date(s): Multiple dates, see announcement.

• TITLE: Biomechanisms of Peripheral Nerve Damage by Anti-Cancer Therapy (R21)  
(PA-12-083)  
SPONSOR: National Cancer Institute, National Institute of Neurological Disorders and Stroke  
Synopsis: The purpose of this Funding Opportunity Announcement (FOA) is to encourage basic biologic research on damage to the peripheral nervous system instigated by pharmacologic cancer treatments, known as chemotherapy-induced peripheral neuropathy (CIPN). The majority of acquired peripheral neuropathy research has focused on diabetic and inherited diseases; this FOA intends to stimulate neuroscience researchers to apply their expertise from studying these other neuropathies to the injuries incurred by cancer treatments. Preclinical research that focuses not only on peripheral neuropathic pain but also on neurosensory symptoms such as paresthesias and peripheral anesthesias is invited. The ultimate goal of this FOA is to lead to a molecular understanding of CIPN that allows for the rational development of interventions that will treat or prevent CIPN.  
Application Receipt Date(s): Multiple dates, see announcement.

• TITLE: Research on Ethical Issues in Biomedical, Social and Behavioral Research (R21)  
(PA-11-182)  
SPONSOR: National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute of Dental and Craniofacial Research, National Institute on Drug Abuse, National Institute of Environmental Health Sciences, National Institute of Mental Health, National Institute of Nursing Research, National Center for Complementary and Alternative Medicine, National Institute on Deafness and Other Communication Disorders, Office of Behavioral and Social Sciences Research
Synopsis: The results of projects funded under this program announcement should enhance the ethical conduct and social value of research within the NIH mission, optimize the protection of human research participants, ensure research burdens and benefits are equitably distributed across populations, and contribute to policy development regarding the implementation and oversight of new research discoveries and methods.

**TITLE:** Research on Ethical Issues in Biomedical, Social and Behavioral Research (R03)  
**SPONSOR:** National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute of Dental and Craniofacial Research, National Institute on Drug Abuse, National Institute of Environmental Health Sciences, National Institute of Mental Health, Fogarty International Center, Office of Behavioral and Social Sciences Research

**Synopsis:** The purpose of this funding opportunity announcement (FOA) is to support investigator-initiated Small Research Grant Award (R03) applications that propose to study high priority bioethical challenges and issues associated with the types of biomedical, social and behavioral research supported by the participating NIH Institutes/Centers. The Office of Behavioral and Social Sciences Research (OBSSR) joins this FOA as part of its efforts to promote research on the behavioral and social aspects of health and illness. However, only participating ICs will provide direct grant support under this FOA.

**Application Receipt Date(s):** Multiple dates, see announcement

**TITLE:** Dissemination and Implementation Research in Health (R03)  
**SPONSOR:** National Institute of Mental Health, National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute on Drug Abuse, Office of Behavioral and Social Sciences Research, Fogarty International Center

**Synopsis:** This Funding Opportunity Announcement (FOA) encourages investigators to submit research grant applications that will identify, develop, evaluate and refine effective and efficient methods, systems, infrastructures, and strategies to disseminate and implement research-tested health behavior change interventions, evidence-based prevention, early detection, diagnostic, treatment and management, and quality of life improvement services, and data monitoring and surveillance reporting tools into public health and clinical practice settings that focus on patient outcomes.

**Application Receipt Date(s):** Multiple dates, see announcement

**TITLE:** Dissemination and Implementation Research in Health (R03)  
**SPONSOR:** National Institute of Mental Health, National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Dental and Craniofacial Research, National Institute on Drug Abuse, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, National Center for Complementary and Alternative Medicine, Office of Behavioral and Social Sciences Research, Fogarty International Center

**Synopsis:** This Funding Opportunity Announcement (FOA) encourages investigators to submit research grant applications that will identify, develop, evaluate and refine effective and efficient methods, systems, infrastructures, and strategies to disseminate and implement research-tested health behavior change interventions, evidence-based prevention, early detection, diagnostic, treatment and management, and quality of life improvement services, and data monitoring and surveillance reporting tools into public health and clinical practice settings that focus on patient outcomes.

**Application Receipt Date(s):** Multiple dates, see announcement

**TITLE:** Research Aimed at Novel Behavioral Targets to Improve Adolescent Substance Abuse Treatment and Prevention Interventions (R34)  
**SPONSOR:** National Institute of Drug Abuse, National Cancer Institute, National Institute on Alcohol Abuse and Alcoholism

**Synopsis:** This Funding Opportunity Announcement (FOA) is part of a trans-NIH initiative known as Collaborative Research on Addiction at NIH (CRAN). Areas supported by this FOA include research to inform the generation and refinement of novel targets for substance abuse treatment and prevention interventions, modules or adjuncts to existing treatments and prevention interventions that seek to target and modulate behavioral or neurobehavioral processes (e.g., impulsivity, risk-taking propensity, sensation and novelty seeking, distress tolerance, delay discounting, self-regulation, stress reactivity) in adolescents. Additionally, this FOA will encourage studies to include theoretical links that explore the relationship(s) between neural circuitry and treatment and prevention effects, and in
particular, how behavioral targets might be affected by treatment and prevention interventions, and how that might be used to improve targeted treatment and prevention development, that translate to reduced morbidity and mortality.

Application Receipt Date(s): Multiple dates, see announcement

• TITLE: Research Aimed at Novel Behavioral Targets to Improve Adolescent Substance Abuse Treatment and Prevention Interventions (R01)
  (PA-15-036)
  SPONSOR: National Cancer Institute, National Institute of Drug Abuse, National Institute on Alcohol Abuse and Alcoholism,
  Synopsis: This Funding Opportunity Announcement (FOA) is part of a trans-NIH initiative known as Collaborative Research on Addiction at NIH (CRAN). Areas supported by this FOA include research to inform the generation and refinement of novel targets for substance abuse treatment and prevention interventions, modules or adjuncts to existing treatments and prevention interventions that seek to target and modulate behavioral or neurobehavioral processes (e.g., impulsivity, risk-taking propensity, sensation and novelty seeking, distress tolerance, delay discounting, self-regulation, stress reactivity) in adolescents. OTHER FUNDING OPPORTUNITIES

• TITLE: Cancer Research Grants
  http://www.pardeefoundation.org/grants.aspx
  SPONSOR: Elsa U. Pardee Foundation

• TITLE: Research Professor Awards
  http://www.cancer.org/research/applyforaresearchgrant/granttypes/research-professor-grants
  SPONSOR: American Cancer Society (ACS)
  Synopsis: The American Cancer Society offers a limited number of grants to mid-career investigators who have made seminal contributions that have changed the direction of basic cancer research. Furthermore, it is expected that these investigators will continue to provide leadership in their research area. Up to two awards are made annually for a five-year term that can be renewed once. The award of up to $80,000 per year (direct costs only) may be used for salary or research project support.

• TITLE: IASLC Lung Cancer Fellowship and Young Investigators Awards
  https://www.iashc.org/fellowship
  SPONSOR: International Association for the Study of Lung Cancer (IASLC)

• TITLE: International Fellowships - Audrey Meyer Mars International Fellowships in Clinical Oncology
  SPONSOR: American Cancer Society (ACS)
  Synopsis: The purpose of the Audrey Meyer Mars International Fellowship in Clinical Oncology is to provide one year of advanced training in clinical oncology at participating cancer centers in the United States to qualified physicians and dentists from other countries, particularly countries where advanced training is not readily available. This program provides up to $45,000 annual funding.

• TITLE: Colon Cancer Alliance-AACR Fellowship in Young-Onset Colorectal Cancer Research
  http://www.aacr.org/Funding/Pages/Funding-Detail.aspx?ItemID=14#VG9kZ lzQSV
  SPONSOR: American Association for Cancer Research (AACR)
