• Notice of Change in Key Dates for RFA-MD-15-010, "Advancing Health Disparities Interventions Through Community-Based Participatory Research (U01)" (NOT-MD-15-012)
  National Institute on Minority Health and Health Disparities
• Notice of Updates for PAR-13-245 "Mentored Research Scientist Development Award (K01)" regarding: Application Package, Extension of the June 2015 Due Date, and Extension of the Funding Opportunity Expiration Date (NOT-OH-15-006)
  National Institute for Occupational Safety and Health
• Notice of Availability of Frequently Asked Questions (FAQs) for RFA-TR-15-004 "Clinical and Translational Science Award (CTSA) Network Recruitment Innovation Centers (RICs) (U24)"
  (NOT-TR-15-014)
  National Center for Advancing Translational Sciences
• Notice of Participation of the National Center for Advancing Translational Sciences (NCATS) in PA-15-249 "NLM Administrative Supplements for Informationist Services in NIH-funded Research Projects (Admin Supp)"
  (NOT-TR-15-015)
  National Center for Advancing Translational Sciences

PROGRAM ANNOUCMENTS

• TITLE: PHS 2015-02 Omnibus Solicitation of the NIH, CDC, FDA and ACF for Small Business Innovation Research Grant Applications (Parent SBIR [R43/R44])
  (PA-15-269)
  SPONSOR: National Cancer Institute, National Eye Institute, National Heart, Lung, and Blood Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute of Diabetes and Digestive and Kidney Diseases, National Institute on Drug Abuse, National Institute of Environmental Health Sciences, National Institute of General Medical Sciences, National Institute of Mental Health, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, National Institute on Minority Health and Health Disparities, National Library of Medicine, National Center for Complementary and Integrative Health, National Center for Advancing Translational Sciences, Division of Program Coordination, Center For Surveillance, Epidemiology and Laboratory Services, National Center for Health Statistics, National Center for Injury Prevention and Control, National Institute for Occupational Safety and Health, Center for Biologics Evaluation and Research, Center for Drug Evaluation and Research, Center for Food Safety and Applied Nutrition, Center for Devices and Radiological Health, Center for Veterinary Medicine, Office of Critical Path Programs, Office of Orphan Products Development, Office of Planning, Research and Evaluation, Administration for Children and Families
  Synopsis: This Funding Opportunity Announcement (FOA) issued by the National Institutes of Health (NIH), the Centers for Disease Control and Prevention (CDC), the Food and Drug Administration (FDA) and the Administration for Children and Families (ACF) invites eligible United States small business concerns (SBCs) to submit Small Business Innovation Research (SBIR) grant applications. United States SBCs that have the research capabilities and technological expertise to contribute to the R&D mission(s) of the NIH, CDC, FDA or ACF awarding components identified in this FOA are encouraged to submit SBIR grant applications in response to identified topics. Application Receipt/Submission Date(s): Multiple dates see announcement.

• TITLE: Harnessing Big Data to Halt HIV (R01)
  (PA-15-273)
  SPONSOR: National Institute of Allergy and Infectious Diseases, National Cancer Institute, National Institute on Drug Abuse, National Institute of Mental Health
  Synopsis: The purpose of this Funding Opportunity Announcement (FOA) is to promote research that transforms understanding of HIV transmission, the HIV care continuum, and HIV comorbidities using Big Data Science (BDS). These approaches should include projects to assemble big data sources, conduct robust and reproducible analyses, and create meaningful visualization of big data.
  Application Receipt/Submission Date(s): Multiple dates see announcement.

• TITLE: PHS 2015-02 Omnibus Solicitation of the NIH, CDC, FDA and ACF for Small Business Innovation Research Transfer Grant Applications (Parent SBIR [R41/R42])
  (PA-15-270)
  SPONSOR: National Cancer Institute, National Eye Institute, National Heart, Lung, and Blood Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute of Biomedical Imaging and Bioengineering, Eunice Kennedy Shriver National Institute of
• **TITLE: Turkey-US Collaborative Program for Affordable Medical Technologies (R01)** (PAR-15-276)
  **SPONSOR:** National Cancer Institute, National Institute of Biomedical Imaging and Bioengineering
  **Synopsis:** This Funding Opportunity Announcement (FOA) invites applications from research partnerships formed between scientists from U.S. and Turkey to accelerate the development of appropriate affordable diagnostic and therapeutic technologies, which address medical needs in low-middle resource settings. Appropriate medical technologies are those that are useable, cost effective, sustainable, and effective in meeting a significant clinical need in a lower-middle resource setting in different world regions. The collaborations should be aimed at developing medical technologies that can significantly impact underserved populations within the United States and/or Turkey and potentially populations in Low and Middle Income Countries (LMICs), particularly in Africa, the Middle East and Eastern Europe. This Funding Opportunity Announcement (FOA) encourages efforts towards developing or reengineering existing medical technologies to make them affordable and efficient so that they will have a significant impact on cancer risk assessment, screening, detection, diagnosis, treatment or monitor treatment related outcomes. The proposed technology/device should be cost effective and widely applicable in LMICs, and offer capabilities comparable to those available in clinical settings of higher income countries. The collaboration must involve at least one U.S. investigator from an eligible U.S. institution and at least one Turkish collaborator affiliated with an eligible Turkish institution. An eligible Turkish institution is either a non-profit or a recognized academic institution as determined by The Scientific and Technological Research Council of Turkey TUBITAK. The applications must involve integrated research projects that are enriched by the inclusion of scientific expertise of both U.S. and Turkish institutions.
  Application Receipt/Submission Date(s): Multiple dates see announcement.

• **TITLE: Ethical Issues in Research on HIV/AIDS and its Co-Morbidities (R21)** (PAR-15-275)
  **SPONSOR:** National Institute of Allergy and Infectious Diseases, National Cancer Institute, National Institute of Mental Health
  **Synopsis:** This Funding Opportunity Announcement (FOA) invites applications addressing ethical issues relevant to research on HIV and associated co-morbidities, including research with populations living with or at high risk of HIV acquisition. The bioethics projects supported through this FOA should focus on at least one of the following three goals: 1) Development of the empirical knowledge base for human subjects protection and ethical standards in HIV/AIDS research; 2) Development of conceptual bioethics approaches to advance scholarship on difficult ethical challenges in HIV/AIDS research; 3) Supporting the integration of bioethics work with ongoing research in HIV/AIDS
  Receipt/Submission Date(s): Multiple dates see announcement.

• **TITLE: Ethical Issues in Research on HIV/AIDS and its Co-Morbidities (R01)** (PAR-15-274)

• **TITLE: Multidisciplinary Studies of HIV/AIDS and Aging (R01)** (PAR-15-280)
This FOA invites applications proposing to study HIV infection, HIV-associated conditions, HIV treatment, and/or biobehavioral or social factors associated with HIV/AIDS in the context of aging and/or in older adults. Research approaches of interest include clinical translational, observational, and intervention studies in domestic and international settings.

RECEIPT/SUBMISSION DATE(S): Multiple dates see announcement.

• TITLE: Multidisciplinary Studies of HIV/AIDS and Aging (R03) (PAR-15-281)
SPONSOR: National Institute on Aging, National Cancer Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute on Drug Abuse
SYNOPSIS: This FOA invites applications proposing to study HIV infection, HIV-associated conditions, HIV treatment, and/or biobehavioral or social factors associated with HIV/AIDS in the context of aging and/or in older adults. Research approaches of interest include clinical translational, observational, and intervention studies in domestic and international settings.

RECEIPT/SUBMISSION DATE(S): Multiple dates see announcement.

• TITLE: Multidisciplinary Studies of HIV/AIDS and Aging (R21) (PAR-15-282)
