Massey Cancer Center Pilot Project Program
SPECIAL Call for Applications

The VCU Massey Cancer Center is announcing a special round of funding opportunities for pilot projects. The purpose of this call for concepts is to foster new inter-programmatic research collaborations between those conducting research in the area of Cancer Prevention and Control (CPC) and those conducting research in another area supported by Massey Program (i.e., Cancer Cell Signaling (CCS), Cancer Molecular Genetics (CMG), Developmental Therapeutics (DT), or Radiation Biology and Oncology (RBO)). The investigator team must include at least one investigator with membership in the CPC Program and one investigator with membership in one of the other MCC Programs (i.e., CCS, CMG, DT, or RBO). Cancer Center members and associate members are eligible to apply for up to $50,000 for a one-year project.

All interested investigators must submit a Pre-Application Form
DUE October 17, 2013
FULL APPLICATIONS DUE November 4, 2013

Submission and Budget Guidelines and the Pre-Application Form are available at http://www.massey.vcu.edu/mcc-pilot-project-program.htm or contact Farah Mirza at fmirza@vcu.edu or at 628-1750.

For additional information, or to discuss eligibility, please contact either of the Program Co-Leaders, Cathy J. Bradley, PhD, at 828-5217 or at cjbradley@vcu.edu; or, Jennifer Elston Lafata, PhD, at 628-3293 or at jelstonlafat@vcu.edu
