REQUEST FOR APPLICATIONS

- Revisions for Macromolecular Interactions in Cells (R01)
  (RFA-GM-14-003)
  National Institute of General Medical Sciences
  Application Receipt Date(s): February 19, 2013, September 19, 2013

- NIH Revision Applications for Research Relevant to the Family Smoking Prevention and Tobacco Control Act (P30)
  (RFA-OD-12-007)
  National Institutes of Health, Food and Drug Administration, National Cancer Institute, National Heart, Lung, and Blood Institute, National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse, National Institute of Mental Health
  Application Receipt Date(s): March 26, 2013

- Research Resource for Human Organs and Tissues (U42)
  (RFA-OD-13-002)
  National Institutes of Health, National Center for Advancing Translational Sciences, National Heart, Lung, and Blood Institute, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institute of Diabetes and Digestive and Kidney Diseases
  Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs
  Application Receipt Date(s): February 21, 2013

- New Methods for Understanding the Functional Role of Human DNA Sequence Variants in Complex Phenotypes (R01)
  (RFA-GM-14-006)
  National Institute of General Medical Sciences
  Application Receipt Date(s): February 21, 2013

- NIMHD Transdisciplinary Collaborative Centers for Research on Men’s Health (U54)
  (RFA-MD-13-004)
  National Institute on Minority Health and Health Disparities
  Application Receipt Date(s): February 06, 2013

- Functional Epigenomics: Developing Tools and Technologies for Cell-type, Temporal, or Locus-specific Manipulation of the Epigenome (R01)
  (RFA-RM-12-026)
  The Common Fund/Office of Strategic Coordination
  Application Receipt Date(s): March 27, 2013

PROGRAM ANNOUNCEMENTS

- **TITLE: Dissemination and Implementation Research in Health (R21)**
  (PAR-13-054)
  **SPONSOR:** National Institute of Mental Health, National Center for Complementary and Alternative Medicine, National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute on Drug Abuse, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, Office of Behavioral and Social Science Research

  **Synopsis:** This Funding Opportunity Announcement (FOA) encourages investigators to submit research grant applications that will identify, develop, evaluate and refine effective and efficient methods, systems, infrastructures, and strategies to disseminate and implement research-tested health behavior change interventions, evidence-based prevention, early detection, diagnostic, treatment and management, and quality of life improvement services, and data monitoring and surveillance reporting tools into public health and clinical practice settings that focus on patient outcomes.

  **Deadline:** Multiple dates, see announcement.

- **TITLE: Dissemination and Implementation Research in Health (R01)**
  (PAR-13-055)
  **Sponsor:** National Institute of Mental Health, National Center for Complementary and Alternative Medicine, National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute of Allergy and Infectious Diseases, National Institute on Drug Abuse, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, National Institute of Diabetes and Digestive and Kidney Diseases, National Institute of Neurological Disorders and Stroke, National Institute of Nursing Research, Office of Behavioral and Social Science Research
Synopsis: The purpose of this dissemination and implementation research funding opportunity announcement (FOA) is to support innovative approaches to identifying, understanding, and overcoming barriers to the adoption, adaptation, integration, scale-up and sustainability of evidence-based interventions, tools, policies, and guidelines. Conversely, there may be a benefit in understanding circumstances that create a need to “de-implement” or reduce the use of strategies and procedures that are not evidence-based, have been prematurely widely adopted, or are harmful or wasteful. This FOA also encourages research on the dissemination and implementation of policies and guidelines, such as from the U.S. Preventive Services Task Force, or the Community Guide to Preventive Services. Study of strategies to most effectively, equitably, and efficiently implement health policies and guidelines is encouraged, as are studies that evaluate policy and other contextual factors that influence the success of implementation or dissemination efforts.

Deadline: Multiple dates, see announcement.

• **TITLE: Dissemination and Implementation Research in Health (R03) (PAR-13-056)**
  **SPONSOR:** National Institute of Mental Health, National Cancer Institute, National Human Genome Research Institute, National Institute on Aging, National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse, National Institute on Deafness and Other Communication Disorders, National Institute of Dental and Craniofacial Research, Office of Behavioral and Social Science Research

Synopsis: The goals of this FOA are to encourage trans-disciplinary teams of scientists and practice stakeholders to work together to develop and/or test conceptual models of dissemination and implementation that may be applicable across diverse community and practice settings and patient populations, and design studies that will accurately and transparently assess the outcomes of dissemination and implementation efforts. Key characteristics of high-priority dissemination and implementation (D&I) research applications may include but are not limited to:

- Use and testing or refinement of intervention and evaluation models appropriate for D&I
- Understanding of the complexity of health interventions, including those with multiple components and those for low resource settings and for populations traditionally underrepresented in research, for which D&I may not be a simple process
- Understanding the incentives and/or barriers to the D&I of novel tools and practices to improve public health
- Consideration and characterization of the multi-level context and environment in which the proposed research will be conducted,
- Development and/or use of applicable outcomes, measures and analyses related to the models used and the project specific aims
- Attention to issues of resources expended, programs costs, cost-effectiveness or other economic outcomes
- Incorporation of stakeholder relevant outcomes of research (including relevant outcomes for patients, families, providers, administrators, policymakers).

Deadline: Multiple dates, see announcement.

• **TITLE: Administrative Supplements to NCI-Funded Research Projects: Funding to Advance Research on Cancers in Women (Admin Supp) (PAR-13-067)**
  **SPONSOR:** National Cancer Institutes (NCI)

Synopsis: The National Cancer Institute's Office of Science Planning and Assessment, in conjunction with the NCI Women's Health Officer and the Women's Health Activities Committee, announces an Administrative Supplement opportunity to expand and/or enhance research on cancers in women, which include both non-sex-/gender-specific cancers and sex-/gender-specific cancers. The overall goal of these Administrative Supplements is to advance cancer research that is pertinent to distinct characteristics of women's health. It is also expected that these efforts will facilitate translational applications of relevant findings to benefit specifically women's health.

Deadline: February 28, 2013
Award Amount $50,000

• **TITLE: Feasibility Studies to Build Collaborative Partnerships in Cancer Research (P20) (PAR-13-068)**
  **SPONSOR:** National Cancer Institute (NCI)
Synopsis: National Cancer Institute (NCI) invites applications for the implementation of collaborative partnership awards between Institutions serving communities with cancer health disparities and NCI-designated Cancer Centers (or groups of Centers). For the purpose of this funding opportunity announcement (FOA), "the Institutions" will refer to academic or other organizations serving communities with cancer health disparities. This FOA is designed to facilitate the planning and execution of focused collaborations in cancer-related research, training and career development, and education by supporting the creation of partnership frameworks and the conduct of pilot projects and pilot programs by investigators at the partnering institutions. A major goal of the NCI P20 partnership awards is to provide support for investigators at the Institutions to conduct cancer pilot projects and programs, which should allow awardees to obtain preliminary data that will lead to their submission of competitive grant applications for support by the NIH/NCI and/or other Federal/non-Federal sources of peer-reviewed funding. This FOA will utilize the NIH Planning Grant (P20) funding mechanism.

Deadline: March 19, 2013; March 19, 2014; March 19, 2015

- **TITLE:** Accelerating the Pace of Drug Abuse Research Using Existing Data (R01)  
  **(PAR-13-080)**  
  **SPONSOR:** National Institute on Drug Abuse, **National Cancer Institute**, National Institute on Alcohol Abuse and Alcoholism

Synopsis: The purpose of this Funding Opportunity Announcement (FOA) is to invite applications proposing the innovative analysis of existing social science, behavioral, administrative, and neuroimaging data to study the etiology and epidemiology of drug using behaviors (defined as alcohol, tobacco, prescription and other drug) and related disorders, associated HIV risk behaviors, prevention of drug use and HIV, and health service utilization. This FOA is a reissue of PAR10-018, broadened to include other existing data modalities, such as neuroimaging data residing either at the collecting institution(s) or at a third-party image repository. encourage the analyses of public use and other extant community-based or clinical datasets to their full potential in order to increase our knowledge of etiology, trajectories of drug using behaviors and their consequences, risk and resilience in the development of psychopathology, strategies to guide the development, testing, implementation, and delivery of high quality, effective and efficient services for the prevention and treatment of drug abuse and HIV.

Deadline: Multiple dates, see announcement.

- **TITLE:** Bridging the Gap Between Cancer Mechanism and Population Science (U01)  
  **(PAR-13-081)**  
  **SPONSOR:** National Cancer Institute, National Institute on Alcohol Abuse and Alcoholism

Synopsis: The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications for projects that bridge biological mechanism to population level scales. By incorporating insights and data from one end of the cancer research spectrum into the framework of the other, projects should be able to cross-validate data gathered at different scales, and explore links between basic biology, population science, and potential health applications in treatment, prevention, diagnosis, and/or screening. Proposed projects should pose a challenging cancer research question that can be addressed by connecting these two ends of the research spectrum that would be difficult to address or explain through biological or epidemiological investigation alone. Only a single cohesive project integrating aspects from these two areas is allowed in each application.

- **TITLE:** Utilizing the PLCO Biospecimens Resource to Bridge Gaps in Cancer Etiology and Early Detection Research (U01)  
  **(PAR-13-036)**  
  **SPONSOR:** National Cancer Institute

Synopsis: This Funding Opportunity Announcement (FOA), issued by the National Cancer Institute (NCI), encourages the submission of grant applications that propose to advance research in cancer etiology and early detection biomarkers, utilizing the advantages of the unique biorepository resources of the NCI-sponsored Prostate, Lung, Colorectal, and Ovarian Cancer (PLCO) Screening Trial. The PLCO Biorepository offers high-quality, prospectively collected, serial pre-diagnostic blood samples from the PLCO-screened arm participants, and a onetime collection of buccal cells from the control arm participants. Available data associated with the biospecimens includes demographic, diet, lifestyle, smoking, screening results, and clinical data. This FOA supports a wide range of cancer research including, but not limited to, biochemical and genetic analyses of cancer risk, as well as discovery and validation of early detection biomarkers. The proposed research project must involve use of PLCO biospecimens; additionally, it should also take advantage of the unique characteristics of the PLCO biospecimens. Research projects that do not involve the use of PLCO biospecimens will not be supported under this FOA.
Deadline: February 20, 2013; June 20, 2013; February 20, 2014; June 20, 2014; February 20, 2015; June 19, 2015

- **Initiative for Maximizing Student Development (IMSD) (R25)**
  (PAR-13-082)
  Institute of General Medical Sciences
  Application Receipt/Submission Date(s): March 14, 2013

- **Postbaccalaureate Research Education Program (PREP) (R25)**
  (PAR-13-085)
  National Institute of General Medical Science
  Application Receipt/Submission Date(s): March 14, 2013

- **AHRQ Health Services Research Projects (R01)**
  (PA-13-045)
  Agency for Healthcare Research and Quality
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **AHRQ Health Services Research Demonstration and Dissemination Grants (R18)**
  (PA-13-046)
  Agency for Healthcare Research and Quality
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **Technological Improvements to Data Collection in NIDDK Clinical Studies (SBIR) (R43/R44)**
  (PA-13-052)
  National Institute of Diabetes and Digestive and Kidney Diseases
  Application Receipt/Submission Date(s): Multiple dates, see announcement

- **Technological Improvements to Data Collection in NIDDK Clinical Studies (STTR) (R41/R42)**
  (PA-13-053)
  National Institute of Diabetes and Digestive and Kidney Diseases
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **Limited Competition: Initiative to Maximize Research Education in Genomics (R25): Diversity Action Plan**
  (PAR-13-063)
  National Human Genome Research Institute
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **Interdisciplinary Complementary and Integrative Health Clinical Research Training Award (T90/R90)**
  (PAR-13-065)
  National Center for Complementary and Alternative Medicine

- **Support of Competitive Research (SCORE) Research Advancement Award (SC1)**
  (PAR-13-069)
  National Institute of General Medical Sciences
  National Institute of Allergy and Infectious Diseases
  National Institute of Dental and Craniofacial Research
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **Support of Competitive Research (SCORE) Pilot Project Award (SC2)**
  (PAR-13-070)
  National Institute of General Medical Sciences
  National Institute of Allergy and Infectious Diseases
  National Institute of Dental and Craniofacial Research
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **Support of Competitive Research (SCORE) Research Continuance Award (SC3)**
  (PAR-13-071)
  National Institute of General Medical Sciences
  National Institute of Allergy and Infectious Diseases
  National Institute of Dental and Craniofacial Research
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- **International Research Scientist Development Award (IRSDA) (K01)**
  (PAR-13-072)
  John E. Fogarty International Center
  Application Receipt/Submission Date(s): March 04, 2015

- **Small Grants for New Investigators to Promote Diversity in Health-Related Research (R03)**
  (PAR-13-074)
  National Institute of Diabetes and Digestive and Kidney Diseases
  National Institute of Mental Health
Office of Dietary Supplements
Application Receipt/Submission Date(s): June 16, 2013; June 16, 2014; June 16, 2015

- Competitive Revision Applications for Research on Complementary Approaches to Symptom Management in Military and Veteran Populations (R01) (PA-13-075)
  National Center for Complementary and Alternative Medicine
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

- Gene Function Studies to Investigate Rare and Undiagnosed Diseases (Admin Supp) (PA-13-076)
  The Common Fund/Office of Strategic Coordination
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

OTHER FUNDING OPPORTUNITIES

1. **TITLE:** Advanced Nursing Education Program
   **SPONSOR:** United States Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA), Bureau of Health Professions (BHPs)

   **Synopsis:** The purpose of the Advanced Nursing Education (ANE) Program is to provide Federal funding for projects that support the enhancement of advanced nursing education and practice. For FY13, HRSA invites applications for projects that integrate the care of individuals with Multiple Chronic Conditions (MCC) into interprofessional education opportunities for advanced nursing education students. Eligible projects would engage advanced nursing education students and other health occupation trainees in shared clinical and didactic learning opportunities to develop competency in the provision of comprehensive health care for individuals with MCC. Chronic conditions are conditions that last a year or more and require ongoing medical attention and/or limit activities of daily living (US Department of Health & Human Services, 2010). They include both physical conditions such as cardiovascular disease, cancer, diabetes and HIV infection, as well as mental and cognitive disorders such as ongoing depression, substance abuse and dementia. In this funding opportunity announcement MCC is defined as two or more concurrent chronic conditions. To be deemed responsive to this funding opportunity announcement, eligible applicants offering advanced nursing education must describe projects addressing the health care needs of persons with multiple chronic conditions (MCC) that will be incorporated into advanced nursing education and conducted within an interprofessional education (IPE) model. The projects must engage other graduate health professionals and demonstrate the integration of IPE into the nursing clinical and didactic curriculum. The project should provide graduate nursing students with requisite knowledge of interprofessional learning and its potential relationship to quality health care for persons with MCC.

   **Deadline(s):** February 1, 2013

   **Award Amount:** Approximately $12 million is estimated to be available in FY 2013 to fund approximately 30 awards.

2. **TITLE:** Translational Research Program
   **SPONSOR:** Leukemia and Lymphoma Society

   **Synopsis:** The formation of the TRP program was to foster collaboration between basic and clinical scientists with the intent of enhancing the transfer of basic research findings to clinical usefulness. Applications are sought proposing novel approaches to the prevention, diagnosis or treatment of leukemia, lymphoma and myeloma.

   **Deadline(s):** March 1, 2013

   **Contact Information:**
   1311 Mamaroneck Avenue
   White Plains, NY 10605
   researchprograms@lls.org
   [http://www.lls.org/content/nationalcontent/pdf/researchers/newtrpguidelinesandinstructions](http://www.lls.org/content/nationalcontent/pdf/researchers/newtrpguidelinesandinstructions)
Award Amount: Awards will be limited to a maximum of $200,000, which includes direct costs and a maximum overhead of $19,982 per year for three years.

3. TITLE: Graduate Scholarships in Cancer Nursing Practice  
SPONSOR: American Cancer Society (ACS), Extramural Grants Program, Mentored Training and Career Development Grants., Predoctoral Training Program

Synopsis: The goal of this program is to strengthen nursing practice by providing assistance for advanced preparation in the following fields of cancer nursing, including clinical practice, education, and administration. This education will qualify the scholarship recipient for the award of a master's degree in nursing or doctorate of nursing practice (DNP).

The requirements for the program are as follows:

a. The program must be offered within an academic institution in the United States that can award a master's degree in nursing or DNP with demonstrated integration of cancer nursing content

b. If the academic program does not offer a formal oncology nursing curriculum, the institution and applicant must document how appropriate didactic and clinical/practical oncology content will be obtained; specifically, the application must identify cancer-related course content that is available in other academic units, e.g., cancer biology, cancer genetics, cancer prevention and control, cancer epidemiology, oncology social work, and/or medical school cancer courses, and describe opportunities for clinical mentorship and supervision from advanced practice oncology nurses or other oncology specialist(s)

c. It is recommended that the school of nursing within or associated with the academic institution offer a program of study compatible with the courses and content outlined in "The Master's Degree with a Specialty in Advanced Practice Oncology Nursing Curriculum Guide" (fourth edition, 2003), published by the Oncology Nursing Society with input from the American Cancer Society

d. The program of graduate studies in nursing must be accredited by the National League for Nursing or the Commission on Collegiate Nursing Education

e. The institution must designate a faculty member responsible for the oncology nursing content in the curriculum or program of study proposed for the applicant

f. Ideally, a clinical practice component for either a master's or DNP degree should include an affiliation with an organized program of services that offers a comprehensive, coordinated, multidisciplinary program for cancer control including prevention, early detection, treatment, ambulatory care, acute care, home care, hospice care, rehabilitation, and other types of follow up services; and a strong clinical component including courses with specific objectives, learning activities, and evaluation plans consistent with curriculum guidelines for advanced preparation in cancer nursing

Deadline(s): February 1, 2013
